

Gastón Rodríguez Consoli

Fullstack Web Developer

gastuconsoli8@gmail.com

Full Stack Developer with experience in Front-end and Back-end. Proficient in C, HTML, CSS, and JavaScript, working collaboratively in teams and analyzing big data. Specialized in creating intuitive interfaces using React.js. Knowledgeable in agile methodologies, GIT, data structures, and algorithms. I have worked on both individual and group projects involving databases and CSS frameworks like Bootstrap. This has helped me develop skills in communication, problem-solving, and delivering high-quality products. Advanced level of English proficiency.

PORTFOLIO

My portfolio is an interactive showcase of my educational achievements and development skills. Through highlighted certificates and projects, I demonstrate my technical and creative prowess.

PROYECTOS

Full Stack Web Developer – Listado de Personas

oct 2023 – oct 2023

Angular Project

An application for creating a list of individuals developed with Angular. With this application, one can create a list where a person can be added, edited, or deleted, with the information saved in a database.

Front: Angular, TypeScript, CSS, HTML.

Database: Firebase

Link Deploy: <https://listado-personas-ec39f.web.app/login>

Link Github: <https://github.com/GJRC23/ListadoDePersonas.git>

Astur Group Website

Sep 2023 – Oct 2023

Wix Project

This project was focused on creating the Astur Group website, a consortium of hotels offering various accommodations. Leveraging my skills, I designed and developed a website highlighting the unique features and offerings of each property within Astur Group. The primary objective was to enhance the consortium's online presence and simplify the booking process for potential guests, ensuring an exceptional and user-friendly experience.

Praiamar Hotel Website

Sep 2023 – Sep 2023

Wix Project

This project involved the creation of the Praiamar Hotel website in Camboriú, Brazil, using the Wix platform. I designed and developed a website showcasing the hotel's amenities and enabling visitors to easily book rooms. This project allowed me to apply my web design and development skills to enhance the hotel's online presence and deliver an exceptional experience to potential guests.
