

Gastón Rodríguez Consoli

Fullstack Web Developer

gastuconsoli8@gmail.com

Full Stack Developer with experience in Front-end and Back-end. Proficient in C, HTML, CSS, and JavaScript, working collaboratively in teams and analyzing big data. Specialized in creating intuitive interfaces using React.js. Knowledgeable in agile methodologies, GIT, data structures, and algorithms. I have worked on both individual and group projects involving databases and CSS frameworks like Bootstrap. This has helped me develop skills in communication, problem-solving, and delivering high-quality products. Advanced level of English proficiency.

PORTFOLIO

My portfolio is an interactive showcase of my educational achievements and development skills. Through highlighted certificates and projects, I demonstrate my technical and creative prowess.

PROYECTOS

Diamant Car Detailing Cotización Website

Oct 2024 – Nov 2024

React Project

I developed a quotation application for Diamant Car Detailing, where customers can select the services they are interested in and generate a message to request a quote via WhatsApp. The application streamlines the price request process and enhances communication between the client and the business.

Front: React, CSS, HTML.

Deployment Front: Firebase.

PetShop Boutique Website

Oct 2024 – Nov 2024

Next.js Project

I developed the website for PetShop Boutique, a pet shop that displays products and facilitates customer interaction. The site provides intuitive navigation and gives users access to product details, enhancing the online shopping experience.

Front: Next.js, CSS, HTML.

Database: MongoDB.

Deployment Back: Vercel.

Deployment Front: Firebase.

Brasil Te Espera Website**Aug 2024 – Sep 2024**

WordPress Project

I developed the Brasil Te Espera website, focused on promoting accommodations in Brazil. I used WordPress and Elementor to display lodging options in a visually appealing and accessible way, facilitating users' search and reservation of accommodations across different regions of the country.

Link: <https://brasilteespera.com/>**Language Hero LLC Website****Jul 2024 – Aug 2024**

React Project

I developed the website for Language Hero LLC, a translation and interpretation services company. The site showcases the services offered and facilitates contact with interested clients, enhancing visibility and access to key company information.

Front: React, CSS, HTML.

Deployment: Firebase.

Astur Group Website**Sep 2023 – Oct 2023**

Wix Project

This project was focused on creating the Astur Group website, a consortium of hotels offering various accommodations. Leveraging my skills, I designed and developed a website highlighting the unique features and offerings of each property within Astur Group. The primary objective was to enhance the consortium's online presence and simplify the booking process for potential guests, ensuring an exceptional and user-friendly experience.

Link: <https://www.asturgroup.org/>**Praiamar Hotel Website****Sep 2023 – Sep 2023**

Wix Project

This project involved the creation of the Praiamar Hotel website in Camboriú, Brazil, using the Wix platform. I designed and developed a website showcasing the hotel's amenities and enabling visitors to easily book rooms. This project allowed me to apply my web design and development skills to enhance the hotel's online presence and deliver an exceptional experience to potential guests.
